SUMMARY

Flutter Engineer with 4+ years building fast, polished, production-ready apps for fintech, health-tech, SaaS, and AI platforms. Strong in animations, performance tuning, scalable architecture, and real-time features. Shipped multiple end-to-end apps across iOS/Android with proven gains in speed, stability, and user experience.

SKILLS

Flutter: Animations, Custom UI, Slivers, Shaders, Gestures
State Mgmt: Riverpod, BLoC, Provider
Backend/Infra: REST, GraphQL, gRPC, Dart Frog, WebSocket, Firebase, Supabase, Stripe, Paystack
Performance: Profiling, isolate usage, UI optimization
DevOps: GitHub Actions, Codemagic, Docker
Testing: Unit, Widget, Integration
Tools: DevTools, Sentry, ML Kit, ARCore/ARKit, Amplitude

PROJECTS

- **DocQuiz AI:** AI tool that generates quizzes + flashcards from lecture notes/textbooks.

- **Screenshot Pro:** Automated App Store/Play Store graphics generator.

- **Loan Manager:** Loan tracking app with 1k+ active users.

- **Tell:** OCR + text-to-speech app.

- **Blocka:** AI-powered parental control (4.8 rating).

- **NotteChat:** AI document/chat assistant using Gemini API.

- **SafeTrace:** Community platform with real-time feeds + RevenueCat.

- **TagMate:** AR-based indoor item tracking (ARCore/ARKit).

EXPERIENCE

Freelance Flutter Consultant — Remote

Flutter Expert | Jan 2023 - Present

- Delivered 10+ apps for e-commerce, health-tech, and social platforms.

- Built GoClean (15k+ users), NeztMate (property management), and Sapa (supplier–reseller network).

- Improved app startup time by 40% and reduced memory use by 35%.

- Integrated Firebase, Supabase, Stripe, RevenueCat, Paystack.

- Shipped UI → store deployments with full workflows.

American Exchange Group — New York, USA

Senior Flutter Developer | Nov 2022 – Dec 2024

- Led iTouch Wearables app for 100k+ global users.

- Built animations/gestures, increasing retention by 40%.

- Improved BLE syncing, dashboards, and real-time metrics.

- Optimized UI rendering for smoother performance.

Moni Africa (YC W22) — San Francisco, USA

Lead Mobile Engineer | Jun 2022 - Nov 2022

- Achieved 4× faster load times for high-traffic financial frontend features.

- Implemented advanced visualizations and shader-driven UI.

- Migrated to Riverpod; reduced UI bugs by 45%.

- Integrated GraphQL and gRPC for real-time operations.

Meghee — Nigeria

Senior Mobile Engineer | Mar 2019 – May 2022

- Built and optimized finance/lifestyle apps with advanced UI.

- Reduced rendering lag by 50%; improved rating from 3.8 → 4.7.

- Added AI (OCR, predictions), improving workflows by 25%.

EDUCATION

B.Sc. Computer Science — Rivers State University

CERTIFICATION

Android Developer Certified (2020)
